## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ketchum.

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Toth, Gurler, Johnson and Ho, each discloses a wetness detection device. Although each of these references discloses structural limitations recited in the claims, neither was used to reject any claims, in the first office action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Brown whose telephone number is (703) 308-2682.
